

God's in Control

God had the plan from the beginning
He even knew we'd be sinning
This world was made completely perfect
We people sinned, that spoilt it all

CHORUS:

But even so
You have to know

God's in control
God's in control
God's in control
God's in control

Some folks look at the world and say
How can God let things go that way?
They don't see that God is blameless
For all this trouble we're only to blame

CHORUS

God always had the big solution
Jesus the cure for all of our sin
We don't understand our Holy God's plans
So trust him and leave it in his mighty hands

CHORUS
